However, if you have any queries regarding this extension then you can write to us. Also, we will be sharing a useful extension that is not discussed in the article. About the Author Prateek kumar is an entrepreneur with a passion for the web and website development. He loves to keep himself updated with the latest trends in the industry and likes to use them in his blog. In addition to this, he also shares other interesting articles from time to time.Q: Make setTimeout run when I press a button, not when page loads I have created a simple click counter, that displays every time you click a button, in seconds. However, when the page loads, the counter starts immediately, and doesn't wait for me to click the button to start. I have tried to remove setTimeout in the.onload function. This does not work. What I'm I doing wrong? Counter
var current_counter = 0; function counter(){ var interval = setInterval(function(){ 82157476af
